

Enrollment form for 2015 Membership

Questions?

For help completing this form, contact AMA at (800) 435-9262.

Return completed form to

Academy of Model Aeronautics
5161 E. Memorial Dr.
Muncie IN 47302
Or fax your form to: (765) 741-0057

1. Contact Information (Only one individual per form.)

<input type="checkbox"/> Mr. <input type="checkbox"/> Mrs. <input type="checkbox"/> Ms.	First Name & Initial	Last Name	
Mailing Address (number and street)			Apt.#
City	State	Zip Code	Phone
Date of Birth:	Email:	<input type="checkbox"/> New Member <input type="checkbox"/> Renewal	AMA # (Renewals only - leave blank if unknown)
Recruiter Information: If you were recruited to join AMA by a member, AMA club, or hobby shop, please indicate only one and list the name and AMA number (if known).		Recruiter Name:	Recruiter AMA #
Primary area of interest (choose only one): <input type="checkbox"/> Radio Control <input type="checkbox"/> Control Line <input type="checkbox"/> Free Flight <input type="checkbox"/> Rocketry			

2. Membership Category (Choose only one of Open, Park Pilot, Youth, or Affiliate memberships.)

All membership categories receive membership, liability and accident/medical insurance, and competitive privileges unless noted.

OPEN MEMBERSHIPS	Adult (New & Renewing) <ul style="list-style-type: none"> • For adults 19 or over as of July 1, 2015. • Includes subscription to <i>Model Aviation</i> magazine. 	<input type="checkbox"/> Choose Renewing Adult \$58.00	Choose New Adult <input type="checkbox"/> Joining 9/15 - 3/31 \$58.00 <input type="checkbox"/> Joining 4/1 - 6/30 \$43.50 <input type="checkbox"/> Joining 7/1 - 9/14 \$29.00	Total for this section:
	Senior (New & Renewing) <ul style="list-style-type: none"> • For adults 65 or over as of July 1, 2015. • Includes subscription to <i>Model Aviation</i> magazine. 	<input type="checkbox"/> Choose Renewing Senior \$48.00	Choose New Senior <input type="checkbox"/> Joining 9/15 - 3/31 \$48.00 <input type="checkbox"/> Joining 4/1 - 6/30 \$36.00 <input type="checkbox"/> Joining 7/1 - 9/14 \$24.00	
	Extra Family <ul style="list-style-type: none"> • For any adult who resides in the same household as a current Open Member. • Does not include a subscription to <i>Model Aviation</i> magazine. 	<input type="checkbox"/> Choose Extra Family \$30.00		
	Included Magazine Options Open Adult and Senior memberships include a subscription to <i>Model Aviation</i> magazine.	Choose a delivery method <input type="checkbox"/> Print <input type="checkbox"/> Digital <input type="checkbox"/> Both (\$9.95)		
	Extras You may add a subscription to <i>Park Pilot</i> magazine. <i>Park Pilot</i> is a quarterly publication covering small-field and indoor electric aircraft.	Protective Wrap Receive your magazine in a protective cover wrap. <input type="checkbox"/> \$4.00 Choose a delivery method <input type="checkbox"/> Print (\$9.95) <input type="checkbox"/> Print & Digital (\$11.95) Receive <i>Park Pilot</i> magazine in a protective cover wrap. <input type="checkbox"/> \$2.00		
<input checked="" type="radio"/> Open Membership application complete. Go to section #3.			OPEN MEMBERSHIP TOTAL:	

PARK PILOT	Park Pilot (New & Renewing) <ul style="list-style-type: none"> • For adults 19 or over as of July 1, 2015. • Includes subscription to <i>Park Pilot</i> magazine. <small>Park Pilot membership is for aircraft 2 pounds or less that flow below 60 mph and does not include voting rights or competitive privileges. Park Pilot membership insurance benefits are limited to \$500,000 of liability coverage.</small>	<input type="checkbox"/> Choose Park Pilot \$29.95	Total for this section:	
	Included Magazine Options	Choose a delivery method <input type="checkbox"/> Print <input type="checkbox"/> Print & Digital (\$2.00)		<input type="checkbox"/> Protective Wrap \$2.00 Receive your magazine in a protective cover wrap.
	Extras You may add a subscription to <i>Model Aviation</i> magazine. <i>Model Aviation</i> is the monthly flagship publication of the AMA and offers our most extensive coverage of the hobby.	Choose a delivery method <input type="checkbox"/> Print (\$36.00) <input type="checkbox"/> Digital (\$36.00) <input type="checkbox"/> Both (\$45.95)		Protective Wrap \$4.00 Protect your magazine in a protective cover wrap. <input type="checkbox"/> \$4.00
<input checked="" type="radio"/> Park Pilot Membership application complete. Go to section #3.			PARK PILOT MEMBERSHIP TOTAL:	

YOUTH	Free Youth For children and young adults under 19 as of July 1, 2015.	<input type="checkbox"/> Choose Free Youth (FREE)	Total for this section:
	Extras Enjoy the entire hobby with <i>Model Aviation</i> magazine. Choose a delivery method <input type="checkbox"/> Print (\$15.00) <input type="checkbox"/> Digital (\$15.00) <input type="checkbox"/> Print & Digital (\$19.95) Receive your magazine in a protective cover wrap. <input type="checkbox"/> \$4.00	Learn about park flying with <i>Park Pilot</i> magazine. 4. Payment Check Visa Mastercard Discover Card No. _____ - _____ - _____ - _____ Exp: ____/____/____

Membership ends each year on December 31, regardless of the date a membership form is received. All membership benefits begin on the day of receipt at AMA Headquarters of a properly completed form and correct dues payment. If a magazine is included with the membership, it begins with the first issue available for the year after a correct current form and payment are received; it expires with the issue printed in December (which is dated January of the following year). Membership rates and insurance limits are those in effect at the time of printing. Actual cost of dues and amount of insurance coverage is subject to change. Any such changes will be noted at the time of membership processing so they may be accepted or not. Forms received after September 15 will be valid for the remainder of that year and all of the following year.

If I am involved in any claim or suit I will not sue the AMA, Inc. I understand that this does not affect my liability insurance coverage. **"I agree to comply with the AMA Safety Code."**

Academy of Model Aeronautics National Model Aircraft Safety Code

Effective January 1, 2014

- A. **GENERAL:** A model aircraft is a non-human-carrying aircraft capable of sustained flight in the atmosphere. It may not exceed limitations of this code and is intended exclusively for sport, recreation, education and/or competition. All model flights must be conducted in accordance with this safety code and any additional rules specific to the flying site.
1. Model aircraft will not be flown:
 - (a) In a careless or reckless manner.
 - (b) At a location where model aircraft activities are prohibited.
 2. Model aircraft pilots will:
 - (a) Yield the right of way to all human-carrying aircraft.
 - (b) See and avoid all aircraft and a spotter must be used when appropriate. (AMA Document #540-D.)
 - (c) Not fly higher than approximately 400 feet above ground level within three (3) miles of an airport without notifying the airport operator.
 - (d) Not interfere with operations and traffic patterns at any airport, heliport or seaplane base except where there is a mixed use agreement.
 - (e) Not exceed a takeoff weight, including fuel, of 55 pounds unless in compliance with the AMA Large Model Airplane program. (AMA Document 520-A.)
 - (f) Ensure the aircraft is identified with the name and address or AMA number of the owner on the inside or affixed to the outside of the model aircraft. (This does not apply to model aircraft flown indoors.)
 - (g) Not operate aircraft with metal-blade propellers or with gaseous boosts except for helicopters operated under the provisions of AMA Document #555.
 - (h) Not operate model aircraft while under the influence of alcohol or while using any drug that could adversely affect the pilot's ability to safely control the model.
 - (i) Not operate model aircraft carrying pyrotechnic devices that explode or burn, or any device which propels a projectile or drops any object that creates a hazard to persons or property.
Exceptions:
 - Free Flight fuses or devices that burn producing smoke and are securely attached to the model aircraft during flight.
 - Rocket motors (using solid propellant) up to a G-series size may be used provided they remain attached to the model during flight. Model rockets may be flown in accordance with the National Model Rocketry Safety Code but may not be launched from model aircraft.
 - Officially designated AMA Air Show Teams (AST) are authorized to use devices and practices as defined within the Team AMA Program Document. (AMA Document #718.)
 - (j) Not operate a turbine-powered aircraft, unless in compliance with the AMA turbine regulations. (AMA Document #510-A.)
 3. Model aircraft will not be flown in AMA sanctioned events, air shows or model demonstrations unless:
 - (a) The aircraft, control system and pilot skills have successfully demonstrated all maneuvers intended or anticipated prior to the specific event.
 - (b) An inexperienced pilot is assisted by an experienced pilot.
 4. When and where required by rule, helmets must be properly worn and fastened. They must be OSHA, DOT, ANSI, SNELL or NOCSAE approved or comply with comparable standards.
- B. **RADIO CONTROL (RC)**
1. All pilots shall avoid flying directly over unprotected people, vessels, vehicles or structures and shall avoid endangerment of life and property of others.
 2. A successful radio equipment ground-range check in accordance with manufacturer's recommendations will be completed before the first flight of a new or repaired model aircraft.
 3. At all flying sites a safety line(s) must be established in front of which all flying takes place. (AMA Document #706.)
 - (a) Only personnel associated with flying the model aircraft are allowed at or in front of the safety line.
 - (b) At air shows or demonstrations, a straight safety line must be established.
 - (c) An area away from the safety line must be maintained for spectators.
 - (d) Intentional flying behind the safety line is prohibited.
 4. RC model aircraft must use the radio-control frequencies currently allowed by the Federal Communications Commission (FCC). Only individuals properly licensed by the FCC are authorized to operate equipment on Amateur Band frequencies.
 5. RC model aircraft will not knowingly operate within three (3) miles of any pre-existing flying site without a frequency-management agreement. (AMA Documents #922 and #923.)
 6. With the exception of events flown under official AMA Competition Regulations, excluding takeoff and landing, no powered model may be flown outdoors closer than 25 feet to any individual, except for the pilot and the pilot's helper(s) located at the flightline.
 7. Under no circumstances may a pilot or other person touch an outdoor model aircraft in flight while it is still under power, except to divert it from striking an individual.
 8. RC night flying requires a lighting system providing the pilot with a clear view of the model's attitude and orientation at all times. Hand-held illumination systems are inadequate for night flying operations.
 9. The pilot of an RC model aircraft shall:
 - (a) Maintain control during the entire flight, maintaining visual contact without enhancement other than by corrective lenses prescribed for the pilot.
 - (b) Fly using the assistance of a camera or First-Person View (FPV) only in accordance with the procedures outlined in AMA Document #550.
 - (c) Fly using the assistance of autopilot or stabilization system only in accordance with the procedures outlined in AMA Document #560.
- C. **FREE FLIGHT**
1. Must be at least 100 feet downwind of spectators and automobile parking when the model aircraft is launched.
 2. Launch area must be clear of all individuals except mechanics, officials, and other fliers.
 3. An effective device will be used to extinguish any fuse on the model aircraft after the fuse has completed its function.
- D. **CONTROL LINE**
1. The complete control system (including the safety thong where applicable) must have an inspection and pull test prior to flying.
 2. The pull test will be in accordance with the current Competition Regulations for the applicable model aircraft category.
 3. Model aircraft not fitting a specific category shall use those pull-test requirements as indicated for Control Line Precision Aerobatics.
 4. The flying area must be clear of all utility wires or poles and a model aircraft will not be flown closer than 50 feet to any above-ground electric utility lines.
 5. The flying area must be clear of all nonessential participants and spectators before the engine is started.
